

New ebook bundle pairs Jane Goodall's *My Life with the Chimpanzees* with classic science fiction titles

Two-week promotion from Humble Bundle benefits the Jane Goodall Institute

San Francisco, CA July 5, 2017 – Jane Goodall's work with chimpanzees and her focus on conservation have changed how we think of the wild world. Now, Humble has partnered with the Jane Goodall Institute and Brick Tower Press to present a selection of Goodall's classic books, including *My Life with the Chimpanzees*, paired with some of Brick Tower's best science fiction. Customers can also adopt a chimpanzee in this bundle (with a little plush version included)! Humble Bundle and Brick Tower will donate all proceeds from purchases \$25 and over to the JGI.

The first three tiers of the bundle include a collection of classic science fiction from the 1970s and 1980s, many of which feature fantasy beasts, alien life forms, and other "strange creatures."

Brick Tower Press also publishes many of Jane Goodall's books for young people. At the \$20 tier, customers will receive the eight-title *Jane Goodall's Animal World series*, along with the newly revised bestseller *My Life with the Chimpanzees* and an excerpt from its corresponding audiobook, available here for the first time!

At the \$25 tier, the Jane Goodall Institute is offering a \$32 discount towards their Chimpanzee Champion program. Customers who buy the top tier will get a promo code to symbolically "adopt a chimpanzee," and receive a bio and photo of Tchimpounga's Chimpanzees, with a small plush chimpanzee included.

Humble Bundle and Brick Tower Press will donate all of their proceeds from any purchase \$25 and over to the Jane Goodall Institute.

About the Jane Goodall Institute

The Jane Goodall Institute is a global community conservation organization that advances the vision and work of Dr. Jane Goodall. By protecting chimpanzees and inspiring action to conserve the natural world we all share, we improve the lives of people, animals and the environment. Founded in 1977 by Dr. Goodall, JGI makes a difference through community-centered conservation and the innovative use of science and technology. We work closely with local communities around the world, inspiring hope through the collective power of individual action. Through Roots & Shoots, our youth-led community action and learning program, young people in 140 countries are acquiring the knowledge and skills to become compassionate conservation leaders in their own backyards.
